

SAT — slice at Rotor tilt [deg] = 30

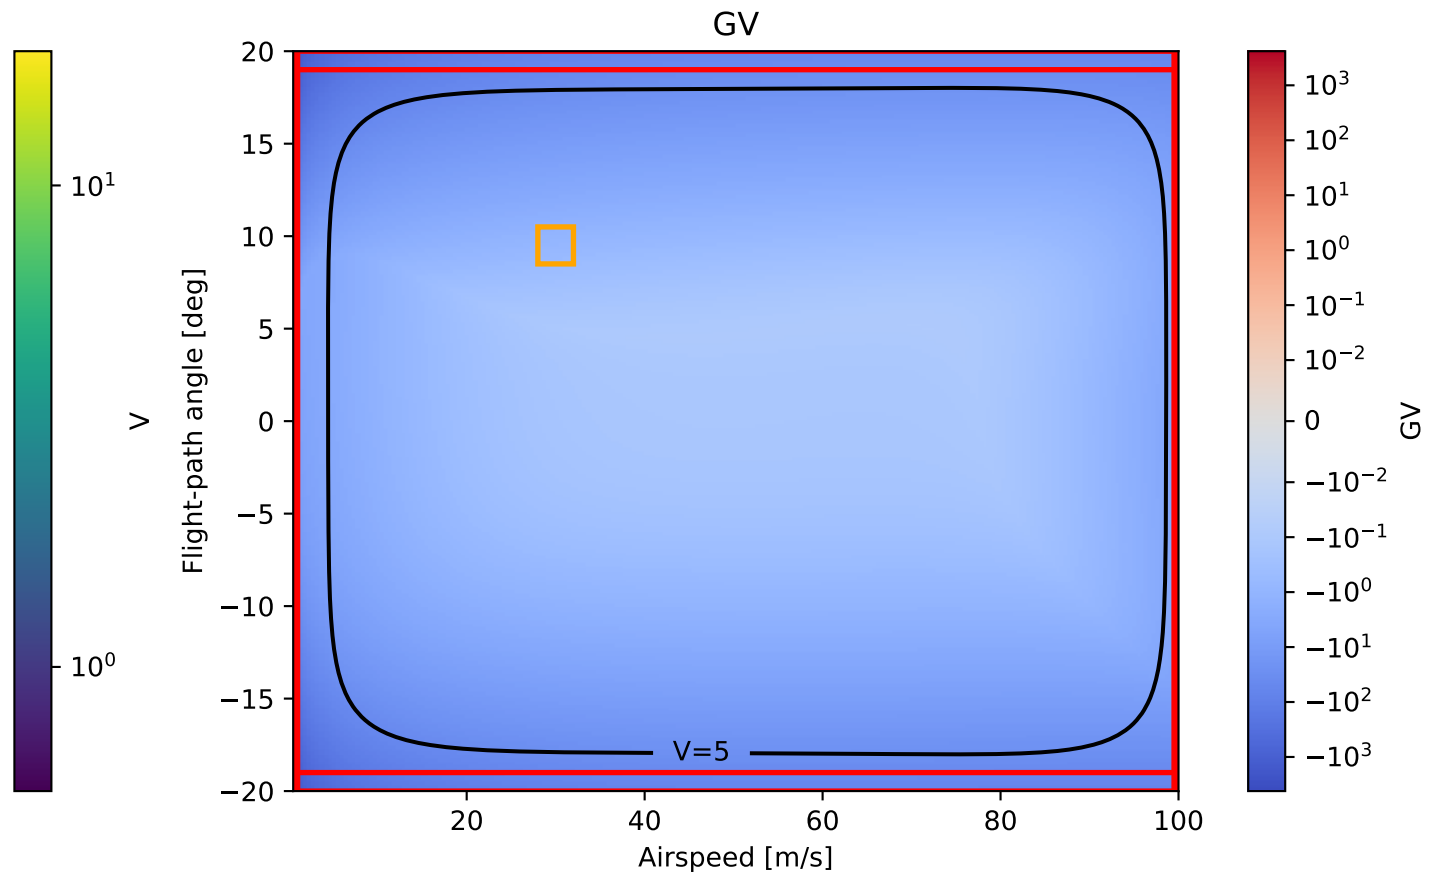

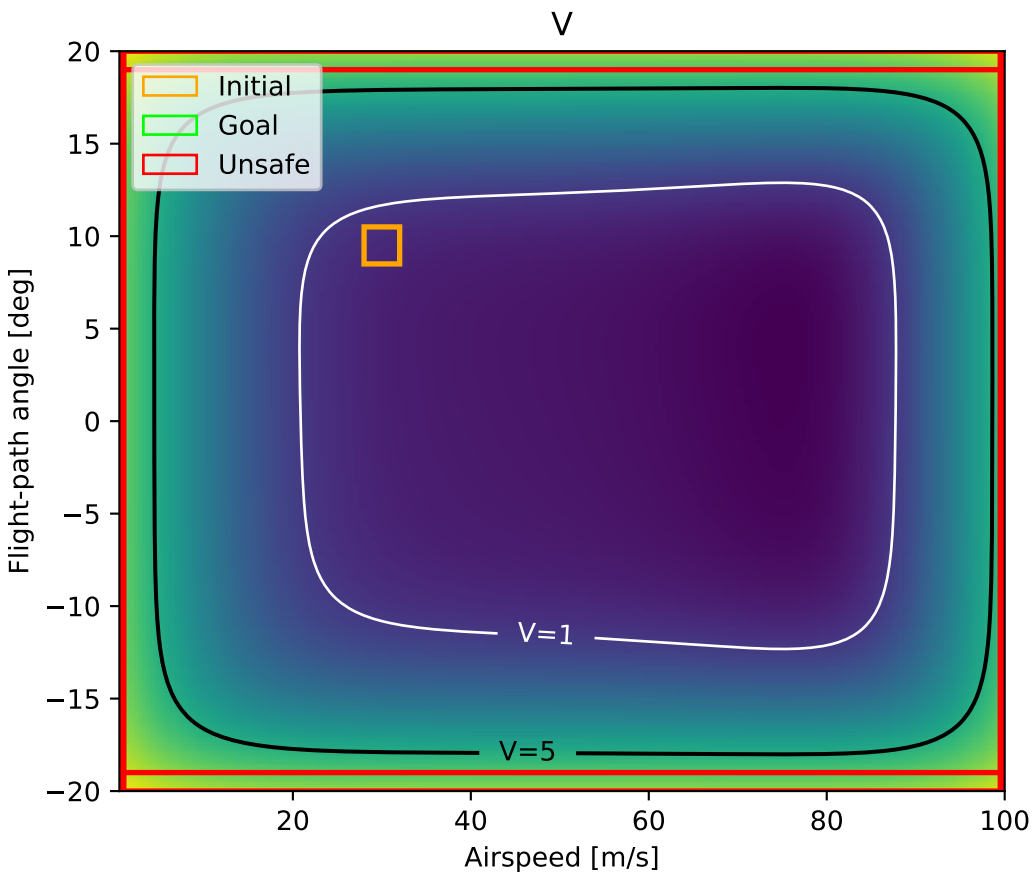

Region boxes appear only when they intersect this slice; colors are sampled values.

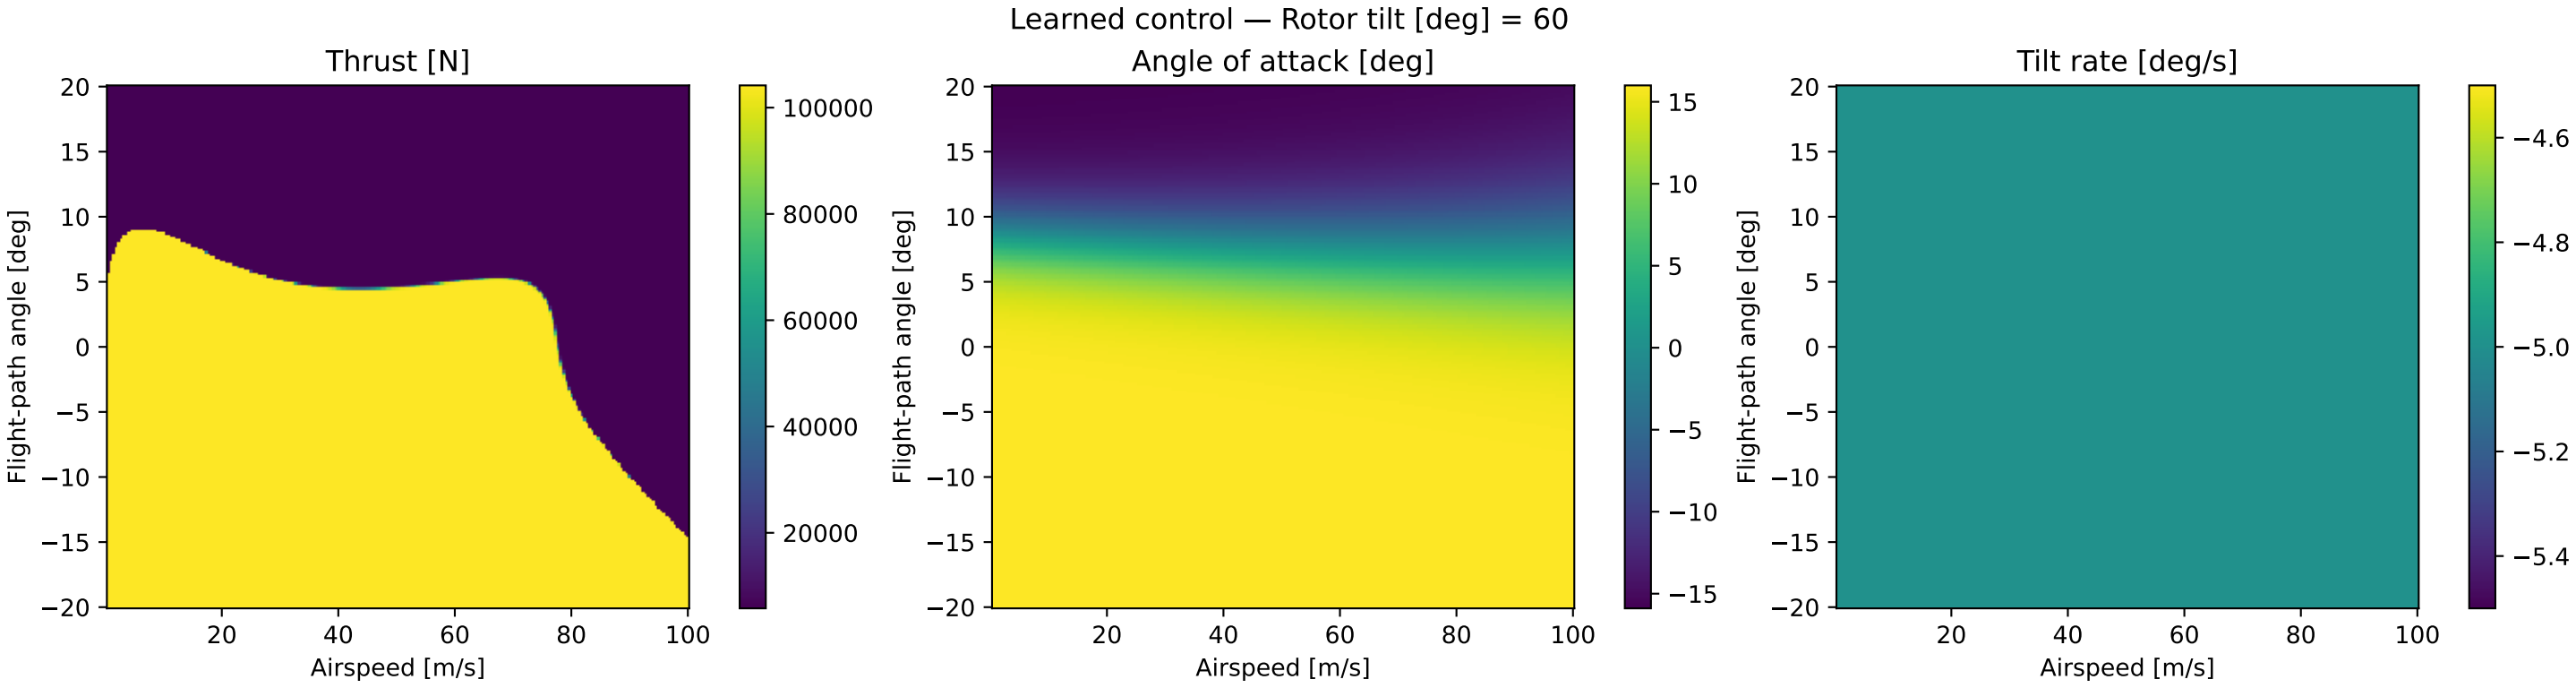

SAT — slice at Rotor tilt [deg] = 60

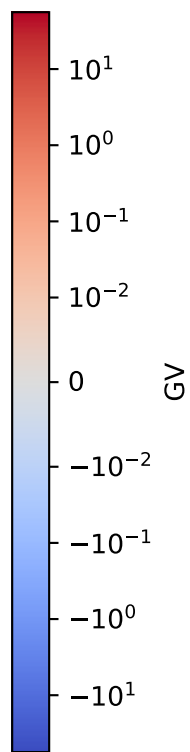

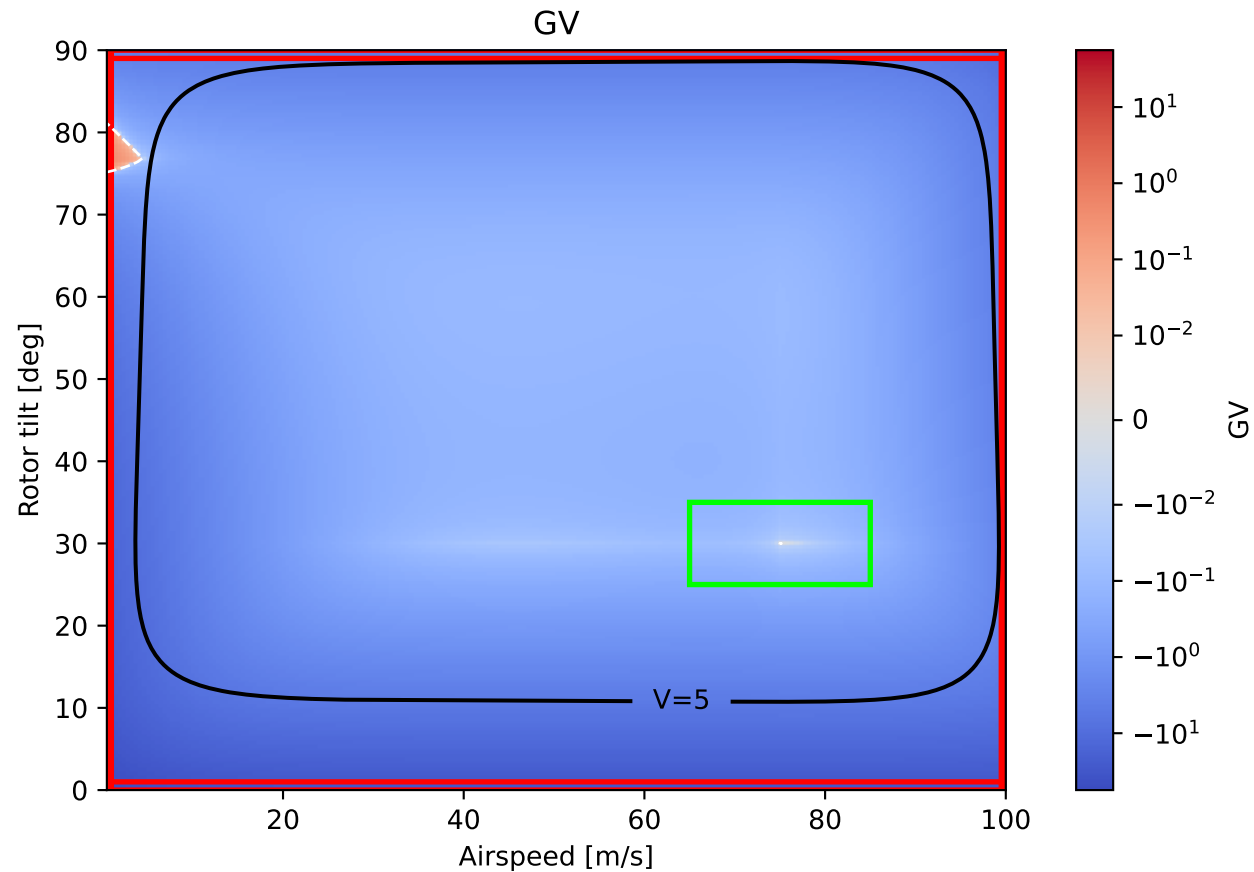

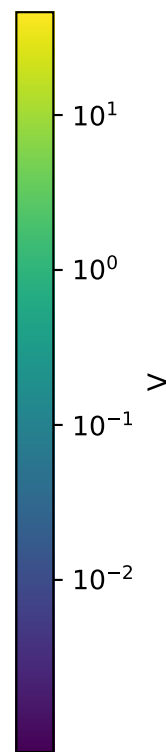

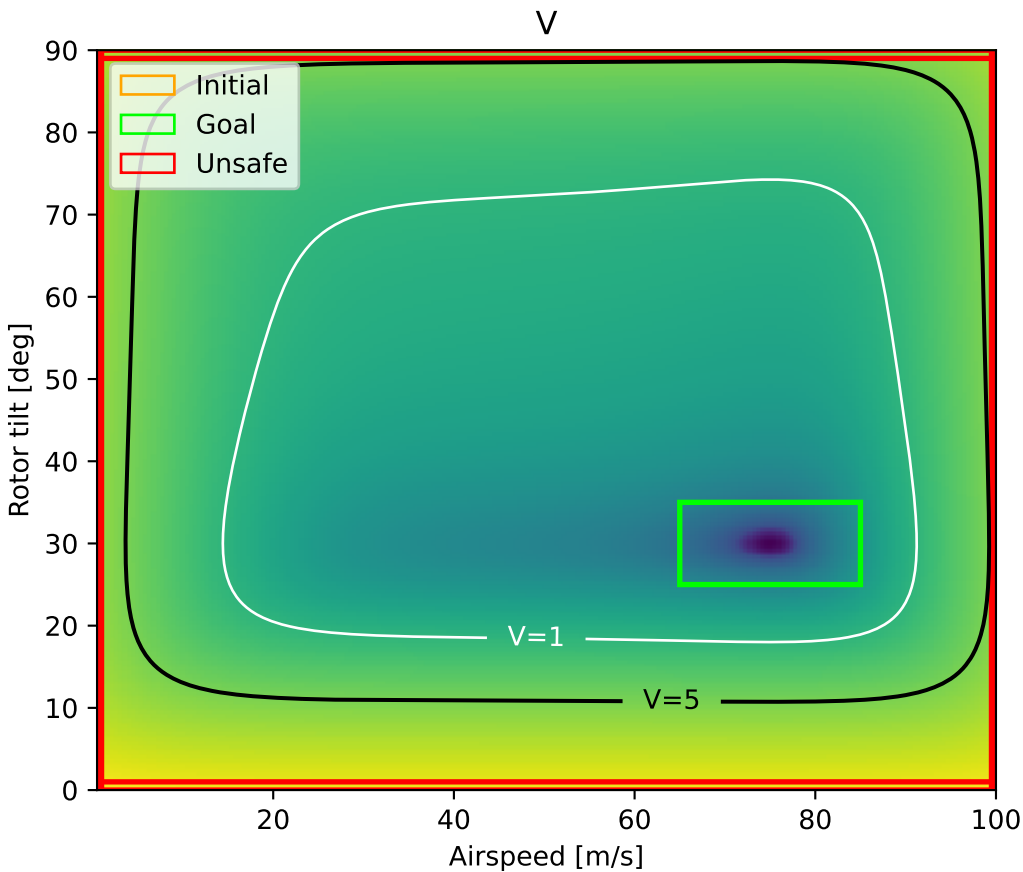

Region boxes appear only when they intersect this slice; colors are sampled values.

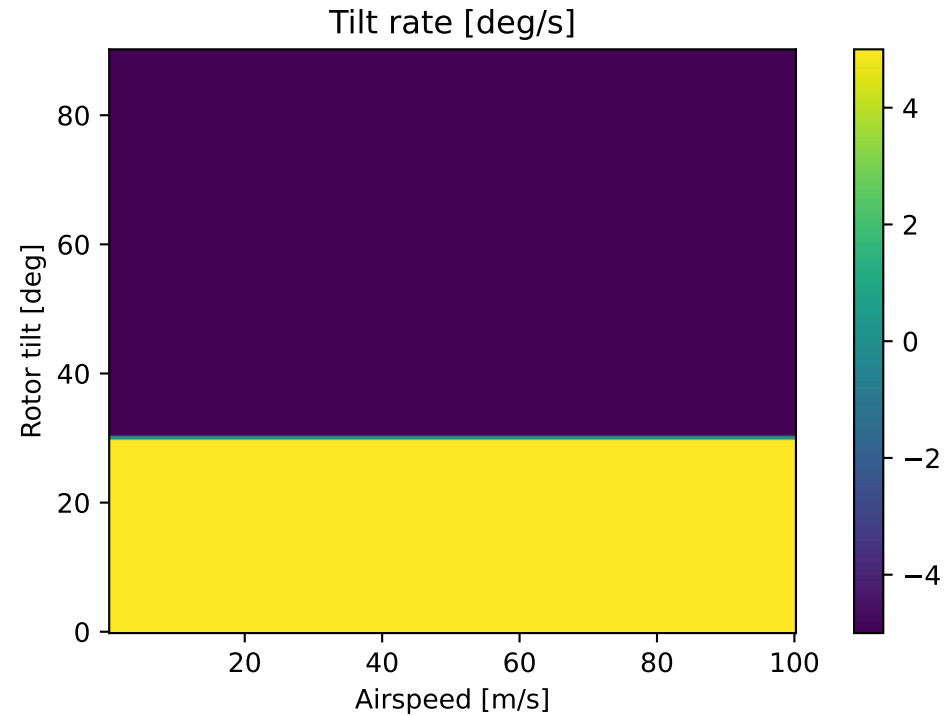

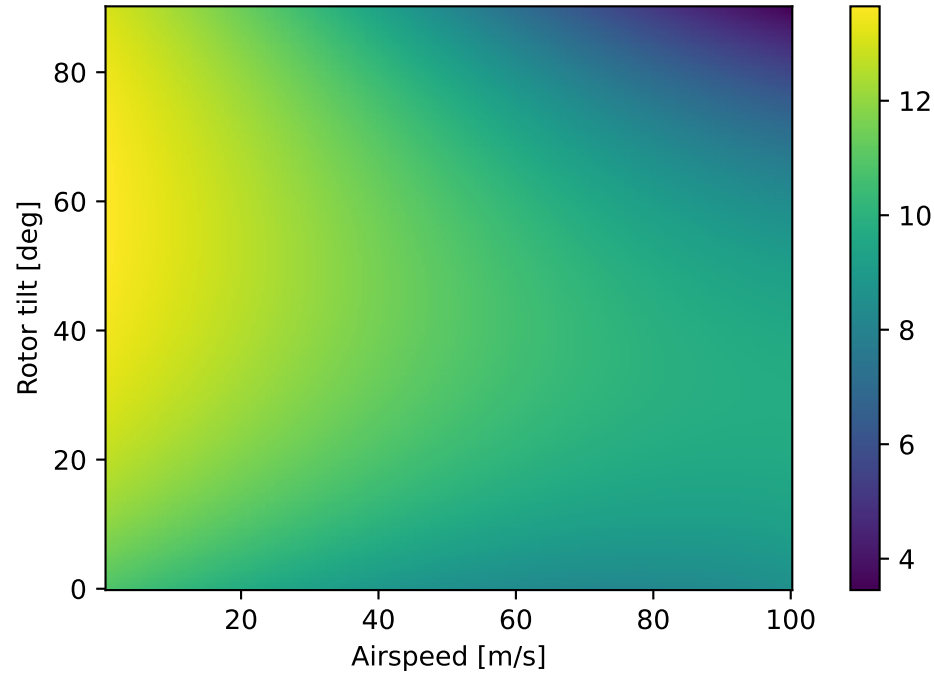

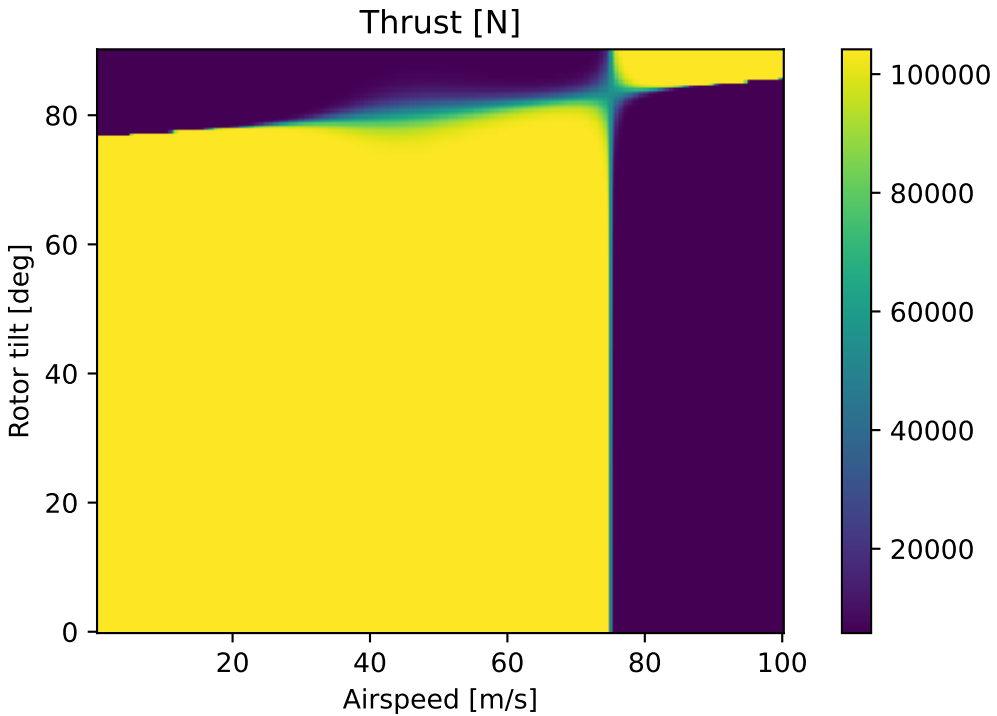

SAT — slice at Flight-path angle [deg] = 4

Region boxes appear only when they intersect this slice; colors are sampled values.

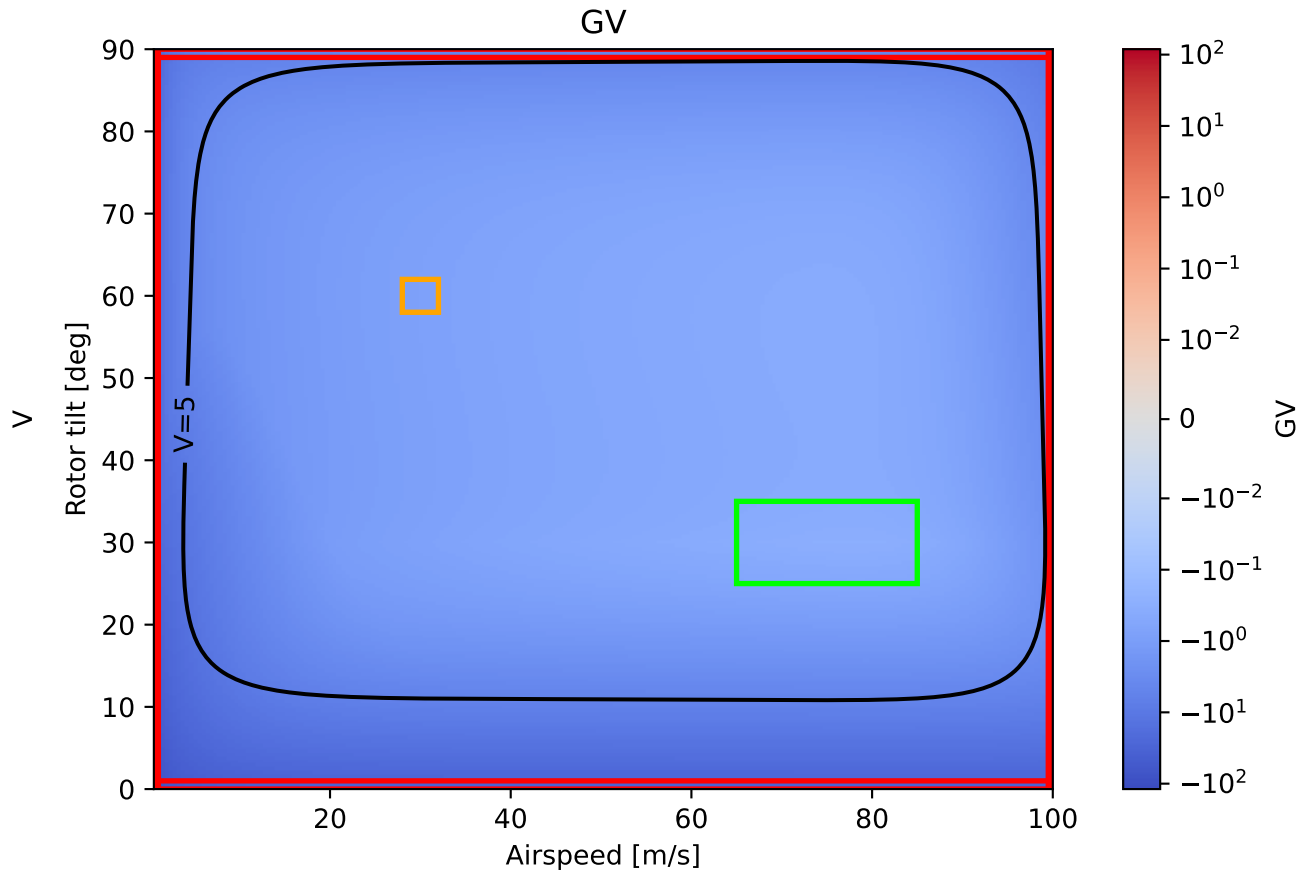

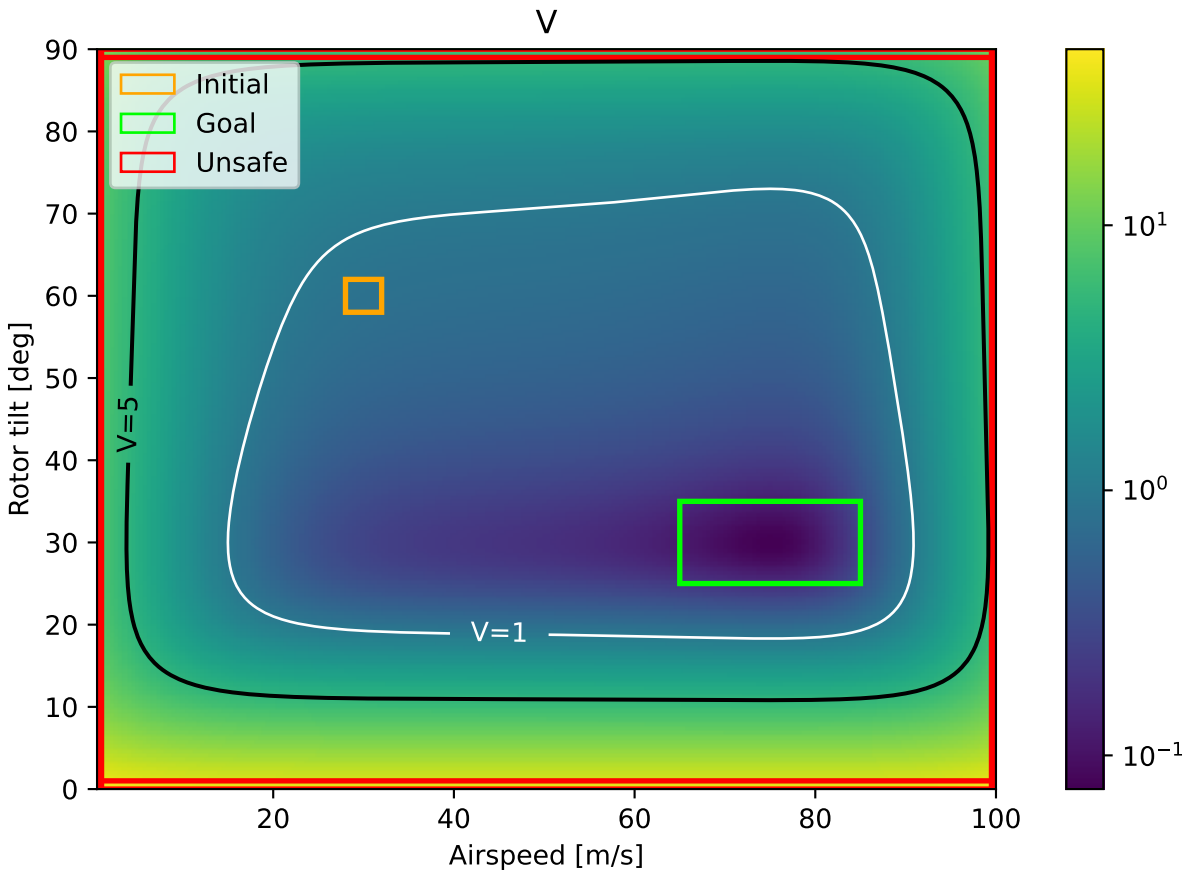

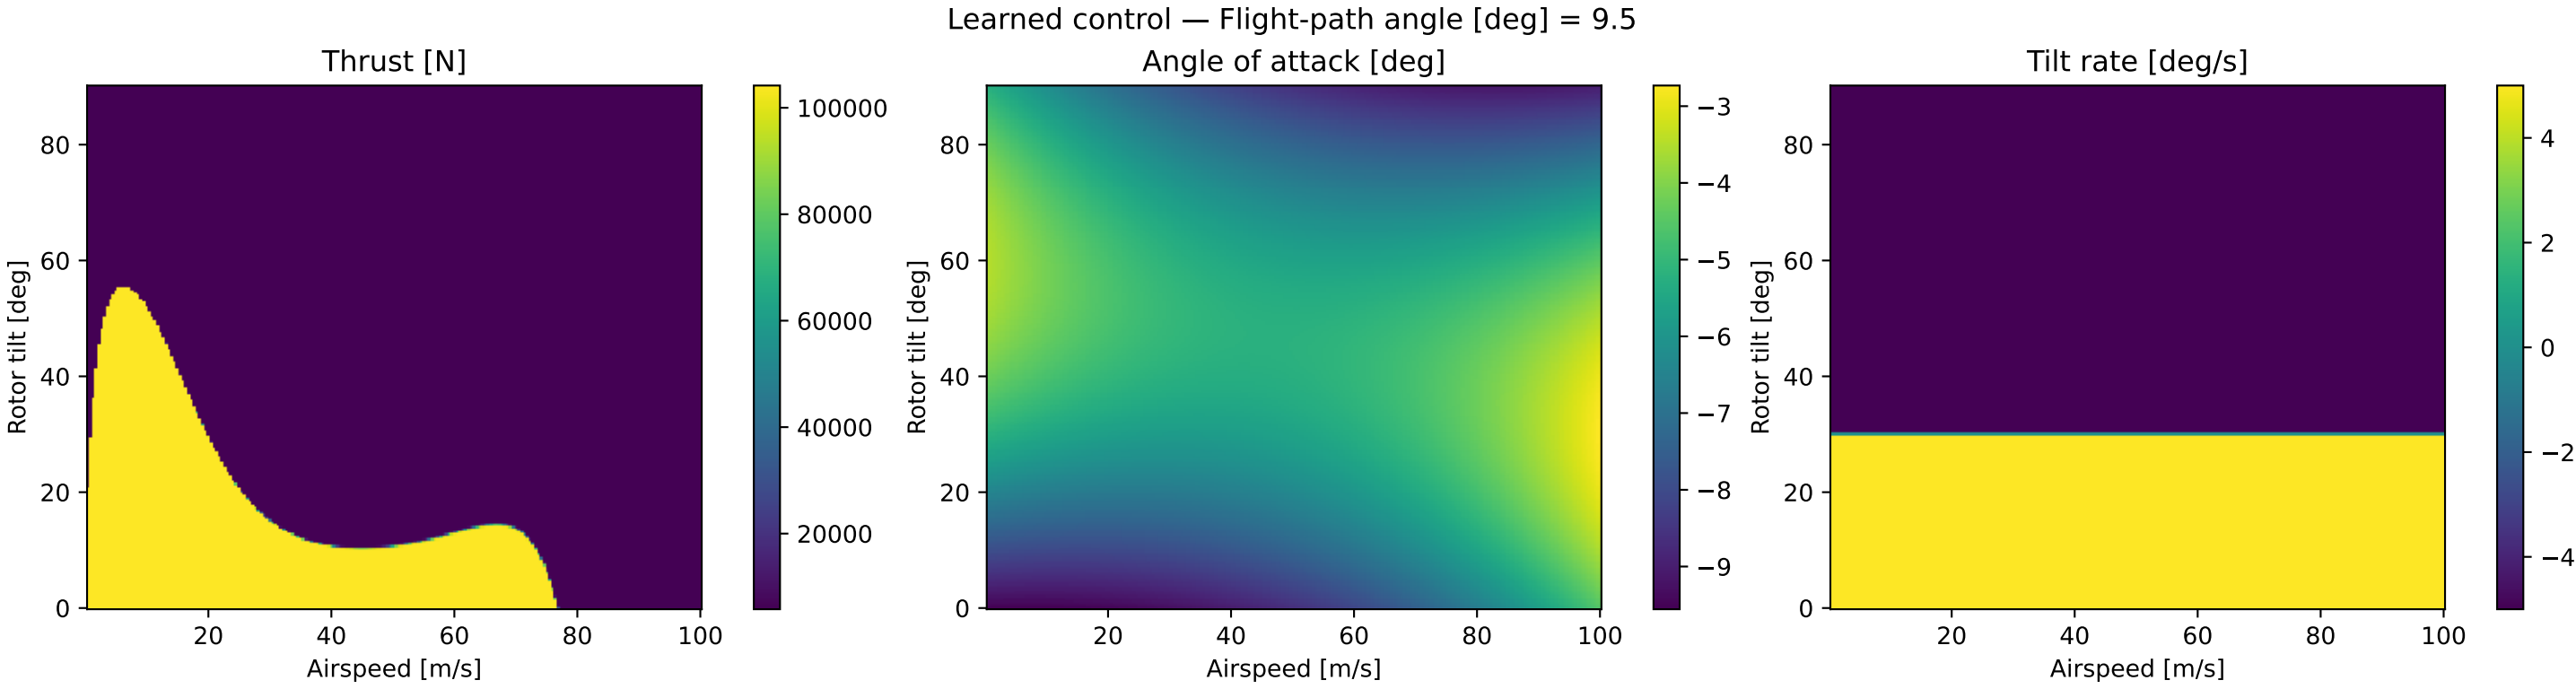

Learned control — Flight-path angle [deg] = 4
Angle of attack [deg]

SAT — slice at Flight-path angle [deg] = 9.5

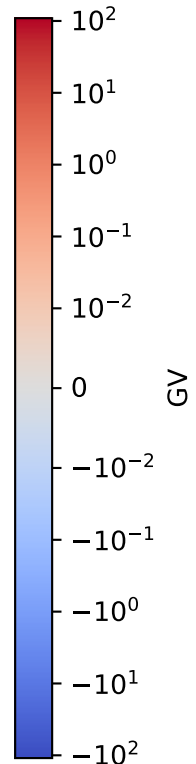

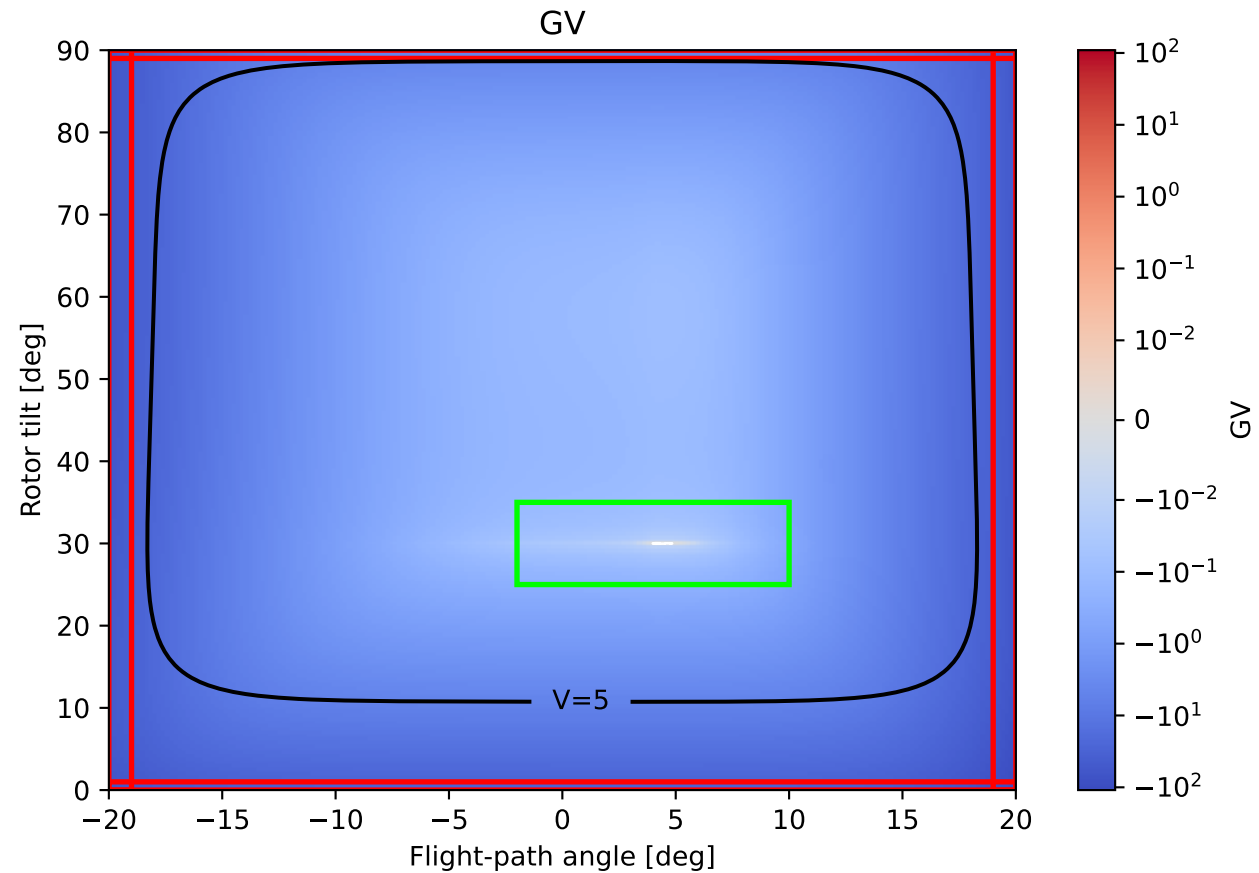

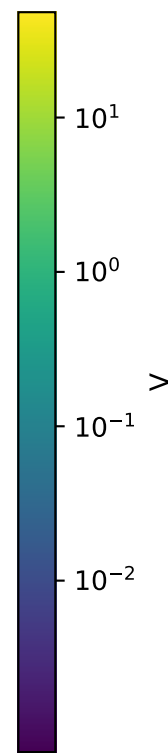

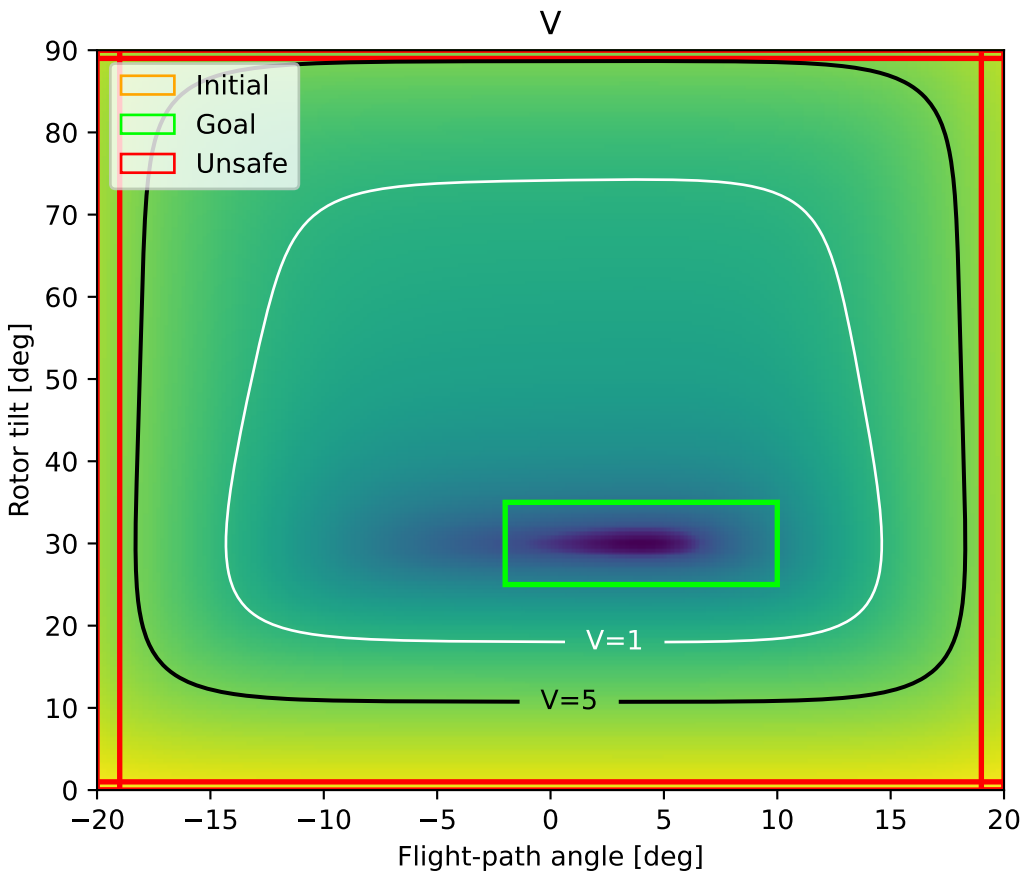

Region boxes appear only when they intersect this slice; colors are sampled values.

SAT — slice at Airspeed [m/s] = 75

Region boxes appear only when they intersect this slice; colors are sampled values.

Learned control — Airspeed [m/s] = 75
Angle of attack [deg]
